Child Health Day
One Cubic Inch, One Ton
Good Fight Ahead
The Lady's Husband
By Arthur Brisbane

HODGE, CAL., April 11.—President Hoover, designating May 1 as "Child Health Day," urges parents and all citizens to cooperate.

These are some ingredients of child health:
Fresh air and sunshine; regular hours, long and regular sleep; rest; eating slowly, which costs nothing and develops teeth and jaws; avoiding automobiles and other troubles.

Good, simple food, with variety from day to day. That costs principally.

While designating a Child Health Day, the government might think of the mother's health also, and the disgraceful fact that this nation leads all others civilized, in the number of mothers that died in childbirth for lack of competent attention.

If a sow is about to have a litter or a cow a calf, the government grants ready to advise and help through the agricultural department.

For the expectant human mother there is no such help.

Trains, instead of all animals, is now produced for \$100 a pound. Some of it was recently taken from the market. This price is low. Recently the stuff was priceless.

It weighs twice as much as lead, but is considered, that is not heavy. Lately, the substance of certain stars, because of terrific heat and compression, weighs 200,000 pounds to the cubic inch. Imagine the outer glow of your fourth weighing a ton.

The sun's radiation, heat and power are supposed to come from the "stripping of atoms." The electrons, revolving around the nuclei are stripped off, and shot into space.

The left alone, are packed on against another, with no space separating them from their electrons and from each other. It is as though you stripped away the planets from each other and packed the suns solidly together in a lump. That would be heavy.

An electron, in proportion to its size, is as far from the central nucleus as the sun is from the earth.

Each atom is a little solar system, so small you do not need a million of these systems in the corner of your eye. Our universe is really too cumbersome, at least for our feeble minds.

Mrs. Ruth McCormick returns to her work in Washington, having beaten by more than 200,000 votes, Mr. Deneen, who beat her husband, the late Melville McCormick, for senator, one year ago.

Stedman McCormick, now in Heaven, knows about that. He is well pleased with his energetic niece.

Some Mrs. McCormick, against James Hamilton Lewis, able and dignified statesman of the old school. Her husband beat James Hamilton Lewis, when Mr. McCormick was elected senator.

That coming election when Mr. McCormick was elected senator, he could not say anything against Mr. Lewis, and Mr. Lewis, who beat him, could not say anything against Mrs. McCormick, if he could, and he could not.

It will have to be a prohibitive fight, Mrs. McCormick is rich, and, unlike some statesmen, she is free INSIDE AND OUT. She votes and lives free.

Mrs. McCormick will say, "Vote for me, and I'll keep you out of the World Court and keep you out."

Mr. Lewis will say, "Elect me, and I'll keep you out of the World Court, as a matter of course, and I'll give you back your flaming hair."

Where the sky-scrapers look awe, looks upon the lake, good citizens will muse at length on the propositions.

Newton Police Believe a De-aged Person Who Cut 3 Babies May Be Woman

Angered Newton mothers joined with police today in seeking out the fiend who slashed the faces of three babies in that city as the babies lay in their cribs.

In the belief of police and doctors the slashing may have been committed by some woman, possibly a nurse, who was in the room at the time.

"Medicine" he asked, "What is your husband's business?"

"He's a bootlegger," replied the lady, "and I tell you he's doing fine."

SHIRLEY CHIEF

QUITS; IS FINED
WITH WOMAN

**Trapped in Home by Husband,
Who Waves Police Heads
Uniform in Triumph**

Ayer, April 11—Pong, Chief of Police Thomas C. Barrill of Shirley. Whatever should he do? Here he was in a lady's home wishing for his uniform, and who should have

The story came out today when 57-year-old Chief Burrill, again with his garment draped around

his bulky form, was arraigned in district court with Mrs. Caroline Estelionis, 26-year-old wife, mother of twins, and both were fined \$100 on a serious charge.

Chief Burrill won't need again.

According to the story, John Estelionis and his brother Frank re-

turned to the former's home unexpectedly from John's Shirley store and found Chief Burrill paying an informal call and not equipped to be prominent or convincing in the role of "What the Men Are Wearing."

With a cry of triumph, the husband is declared to have seized up the chief's uniform, which was resting momentarily from official wear, and to have dashed into the highways and byways waving the garments.

Meanwhile, according to the declarations, Chief Burrill is understood to have been endeavoring to encase his bulk in inadequate garments of the slender, sylphlike Estelionis—with no luck.

Chief Burrill finally was rescued by Chairman Robert Holden of the Shirley selectmen, who draped the chief in borrowed clothing, permitting him to go home.

be Janet Gaynor, one of her best friends, who returns from Honolulu to be in the wedding party; her sister-in-law, Marjorie Daw Selznick; her cousin, Mitzi Cummings; and Marjorie Strauss.

The groom will have as his best man his elder brother, Myron Selznick. The ushers, all well-known figures in filmland, include Paul Bern, Oliver H. P. Garrett, William Goetz and B. P. Schulberg.

seiving the plaudits of the House. Mrs. Alice Roosevelt Longworth, her bosom friend, was in Speaker Longworth's office. Mrs. McCormick joined her for luncheon.

Later today she will call on President Hoover at the White House and it is believed will warn him of Republican danger in the League Court issue.

President Hoover has stated that "at a convenient time" he will re-submit to the Senate the question of American adherence to the league court.

It is understood Mrs. McCormick will advise Mr. Hoover that the Middle West is opposed to the court, and warn him that defeat staves Republican candidates in the

The happiest endings to dining formally or "en famille" come ready to serve in Fro-Joy's new 2-flavor pint package

TWO ice cream flavors are the only ones that have been named after a city. In 1929, the first Ben & Jerry's ice cream was made in New York City. The company was founded by Ben Cohen and Jerry Greenberg, who were both students at the University of Vermont. They started the company in 1965, and it has since become one of the most popular ice cream brands in the world. The company's headquarters are located in New York City, and it has over 100 retail locations in the United States. The company's success is a testament to the power of a good idea and the importance of hard work.

Handy Moore, Rabbit Maranville, Fred Maguire, Johnny Neun. Although Bill McKechnie has not yet picked his regular lineup, yet it would not be surprising to see the above infield combination in action against the Red Sox tomorrow. Moore at short, Maguire at second and Neun at first.

THERE IS A BEST

Even in such an humble and alike-to-the-eye product as gasoline, there is a best. That Ethyl is an essential ingredient of any "best" gasoline, few will dispute. Nor will many deny that the extra pennies this demands are well spent. Since the Ethyl in each Ethyl-ized fuel is identical, the question then becomes—"Which Ethyl-ized fuel contains the best gasoline?"

4 The gasoline in Colonial Ethyl is time-tested Colonial Gas. Nothing else is added—nothing is subtracted. What this fuel will do—even without Ethyl—needs no adjectives from us. Its record is writ on the roads you travel. Its purity, power and response are common knowledge. Its users are all about you.

4 Add to such a fuel the revealed abilities of Ethyl, and there can be but one result. Colonial Ethyl was the first Ethyl gasoline sold in New England and New York. It still is first in performance. If you want the best in motor fuel... and you can afford to... look for the green pump marked...

A STATEMENT by GILLETTE about the New Razor and Blade

By Frank J. Fahey
Vice-President

WE had planned to produce 80,000 of the New Razors daily. We have found it necessary to increase this to 100,000 a day.

We have shipped over 3,000,000 New Razors and 65,000,000 New Blades.

Production is still behind the demand.

We made sure of our ground before beginning to manufacture these new products. It was our purpose to produce the greatest shaving improvement in the twenty-eight years of our history.

The public is the final judge of every manufacturer's product. The public has tried the New Razor and the New Blade. Its verdict is even more enthusiastic than we had dared to hope.

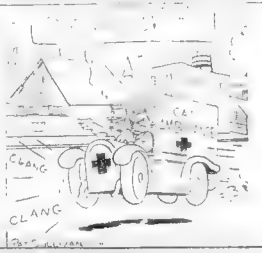

We desire to express our grateful appreciation.
